Development · soft

- React · Next.js · TypeScript
- Python · No-code + AI
- Docker · Git
- Client communication · training

Languages

- Polish — native
- English — B1/B2 (fluent with

PROFESSIONAL PROFILE

I create social media content end-to-end: scripts and copy editing, video (CapCut Pro, DaVinci Resolve, ffmpeg), graphics and thumbnails (Canva, GPT-Image), and a content calendar driven by trends and analytics. I run my own channels (YT/IG/FB) on a custom automated pipeline with AI agents — case study: Metoda Sufy. Technical backbone: automations (n8n, Python, APIs) and web apps. 17 years as a professional actor — incl. a lead role in the crime series "Gliniarze" (Polsat) — fully at ease on mic and lens. Co-founder of Tercet Labs. Open to employment or B2B — registered sole proprietorship. Remote · PL/EU.

EXPERIENCE

Co-founder · Tercet Labs sp. z o.o.

2026 – present

A company that brings AI into businesses together with their teams (tercetlabs.pl). Our products include Asistel, a voice assistant for pharmacies (asistel.pl)

- Product, AI layer (dialog, tickets) and client communication; team and process management panel
- Asistel PWA: speech-to-text voice notes — one-tap recording, saved as text; pharmacists work hands-free
- Voice agent handling calls — code review and shared approval in the team

Content Creator & Founder · Studio AI — Metoda Sufy

2025 – present

Personal brand run as a content studio: YouTube, Instagram, Facebook — full cycle from idea to publication

- End-to-end video production: script → voiceover/recording → editing (CapCut Pro, ffmpeg, DaVinci Resolve) → thumbnails and hook frames (GPT-Image, Canva) → publishing
- Custom automated pipeline with AI agents: trend radar, post-resonance analytics, content calendar, publishing queue (n8n, VPS)
- Polish copywriting and editing: posts, carousels, hooks, e-mail sequences; selling my own ebook

Founder · LEV

2025 – present

My practice: content and social media for companies

- Content for companies from idea to publication: scripts, video, graphics and thumbnails, content calendar
- Social media automation and team training in AI tools

SELECTED PROJECTS

Metoda Sufy — living portfolio — YT/IG/FB channels run on my own automated content studio: long-form video and Reels, carousels, ebook — full reach and engagement metrics available on request

Studio AI — End-to-end video production pipeline: script → voiceover (TTS, forced alignment) → illustrations → editing and publishing (Python, ffmpeg, Claude agents, n8n; ExoVault as agent-team memory and task board)

Organizacja Myśląca (Thinking Organization) — Decision-support system based on systems thinking (Senge): ladder of inference, dialogue vs. discussion, system archetypes — prototyping the tool with AI agents

maciejvsufa.pl — Next.js portfolio (PL/EN), Lighthouse 99+

EDUCATION · CERTIFICATE

Warsaw Film School (WSF) — acting (2008–2010), higher education

AI Skills for Tomorrow — Using AI in Business Development (2025)

Google & SGH (Warsaw School of Economics) — Practical Google & SGH program: AI in productivity, marketing, sales, analytics and AI agents; AI implementation leadership
